Figure 12 NFB Overall Upper Limit Gamma Survey Map.pdf

Good Afternoon:

I was asked a question last week from the reporter Dan Telvock regarding estimation of amount of material still yet to be excavated and disposed of under our existing action memo. I provide that estimate to him. Below is an additional request. Attached is the document he is requesting. It is a draft document that we use to plan and describe what is going. Sometimes we change the colors or the gamma ranges but the results are the results our team observed. I assume this would be available via FOIA but I wanted to check with public affairs and ORC first.

Please let me know what you think.

Thanks

**Subject:** Re: NFB Site Information

Thank you! That's a lot of rock to remove.

Could you send me a map of the NFB site - it shows all the areas 1-7 and has red dots, yellow dots. One of the attorneys showed it to me, but wouldn't let me use it.

Dan Telvock
